

Share2Care Weekly News

WOW 2,737,360 (yes, almost 3 million) documents have now been submitted into the shared record!

Engagement Month

We would like to give a big thank you to all of our partner organisations for your enthusiasm and participation during our four week engagement and focus month. Highlights of the month included two grand rounds taking place at Alder Hey Children's Hospital and The Clatterbridge Cancer Centre, a clinical senate at The Walton Centre and our fantastic 'WhatsApp' video by our Chief Clinical Information Officer Dr Martin Wilson which has been shared far and wide.

A special thank you also to Faye Sefton our Comms lead in helping, producing and distributing our various engagement materials.

Benefits

We're working together with our partner organisations to identify, measure and report centrally the benefits of Share2Care. Already, we are beginning to see a steady increase in utilisation, and real benefits are developing as a result of more clinical staff using Share2Care. A recent staff survey around the benefits of the platform indicates that clinical staff are finding the following advantages facilitated through Share2Care the most beneficial:

- ◇ Saves Time
- ◇ Improves Patient Experience
- ◇ Easier access to clinical information
- ◇ Improves clinical decision making
- ◇ Easier access to medication information

If you're identifying further benefits of using Share2Care to support your role, please get in touch with us and share your experience at: share2care@alderhey.nhs.uk

Hot off the press...

- ◇ Ophthalmology clinic letters are being published from Warrington!
- ◇ We are now testing the publishing of documents from Mersey Care
- ◇ The ADT Feed from North West Boroughs is now LIVE
- ◇ 96% of GP practices are now switched on in e-Xchange.
- ◇ Following the impact of the engagement month, there has been an increase in the daily usage of **10.3%**

Video blogs

We've had a fantastic response to our request for two minute long videos, and have so far received content from teams at NWS, The Clatterbridge Cancer Centre and Royal Liverpool. Don't forget to follow us on our **Twitter channel** if you're not already, to see the latest video blogs (or vlogs as they're sometimes called) as they go live!

Quote cards

If the thought of filming yourself for a video blog fills you with dread, don't worry as there are other ways that you can help us to further promote the benefits of Share2Care. One of the other ways you can support us is through writing a short quote of no more than 75 words, describing how Share2Care has supported you in your role to deliver safer and more effective care. Then all you need to do is send your quote, along with your full name, job title, the organisation you work for and a good quality photograph of yourself to: share2care@alderhey.nhs.uk and with this, we'll create a branded 'quote card' that we'll feature on our Twitter channel! Here's an example of a short quote below:

“We often rely on the information exchange to make clinical decisions regarding neuro oncology treatments. The sharing of information is vital to the patient pathway and the patient experience.”

Specialist Nurse, Oncology, The Walton Centre
